Aims and Objectives

APCIL-5 (The 5th Asian-Pacific Conference on Ionic Liquids and Green Processes) will be held in Hangzhou, China, Oct. 26-29, 2016. The main theme of this conference is: **Green Energy, Environment & Materials**.

APCIL was first held in 2008 and to be continued every second year. The scientific theme of APCIL encompasses a series of topics, including not only breakthroughs in fundamental research but also progress in practical industrial application.

APCIL-5 will continue the tradition of bringing together researchers and engineering practitioners working with ionic liquids (as well as related fields and green chemical progress) from inside and outside of the Asian-Pacific region, to exchange research ideas, present new findings, and to identify opportunities for scaling up of Ionic Liquid applications in industrial processes. **APCIL-5** will also provide an opportunity for organizations to showcase products and services to key industry personnel and to network with existing and potential clients and colleagues.

It is a great pleasure for us to invite you to submit abstracts for oral presentations or posters.

Welcome to APCIL-5 !
