Yokohama

Yokohama offers a spectacular location on the Tokyo Bay as one of the core cities of the capital area and the largest seaport in Japan. This modern active city has numerous charms including a beautiful bay view, modern architecture, the largest Chinatown in Japan, parks, international sports stadiums and shopping malls, and much more. Both the center of Tokyo and the historical walk of Kamakura are close to Yokohama.

COIL-2 will be held at the **Pacifico Yokohama** conference and convention center located at the waterfront in *Minato Mirai 21*, a newly constructed neighborhood including the Landmark Tower, the tallest building in Japan. The following websites provide up-to-date information about Yokohama, including links to maps, public transportation information, sightseeing, etc.

2nd International Congress on Ionic Liquids (COIL-2)

Yokohama, Japan

August 6-10, 2007

First Announcement Call for Papers

Invitation

We are pleased to announce the 2nd International Congress on Ionic Liquids (**COIL-2**), which will be held during August 6-10, 2007 in Yokohama, Japan.

On behalf of the Organizing Committee, we invited you to attend COIL-2. You will participate in the most complete ionic liquids conference held to date, learn of the latest breakthroughs in ionic liquids research, and meet many of the most active scientists and engineers working in the field. The topics discussed will cover a broad range of topics from fundamental research to applications, including both academic and industry perspectives. COIL-2 will provide a unique opportunity to look through the very forefront of ionic liquid research.
